

HYDRA FLOW WEST TO REPRESENT WALKER FILTRATION ON WEST COAST

November 12, 2010 – **FOR IMMEDIATE RELEASE:** - Walker Filtration, Inc. located in Erie, PA and a global leader in compressed air and gas filtration is excited to announce the appointment of a West Coast manufacturer's representative, Hydra Flow West. With a reputable and successful business, Hydra Flow West is a well known manufacturer's representative in California that will represent Walker Filtration on the West Coast beginning December 1, 2010.

Since 1993 Hydra Flow West has provided industrial distributors in the Western United States with a wide array of high quality pneumatic machinery and components. With over 70 years of combined experience, Hydra Flow West strives to provide customers with excellent service and support while meeting manufactures strategic sales plan and distribution goals. Working out of a 40,000 square foot warehouse in the Greater Los Angeles area, Hydra Flow's mission is to "stock what the customer needs and service what they sell" while providing their customers with the highest level of personalized support.

"We are excited about our new relationship with Walker Filtration, said Mike King, Sales Manager and owner of Hydra Flow West. We feel the product offering is diverse, of the highest quality, and offers our distributors a broad range of products to improve their overall profitability. Walker Filtration's commitment to West Coast based inventory along with their strong technical sales and marketing support can only help our companies achieve our mutual goals. We look forward to a long and successful relationship!"

Walker Filtration will offer sales, technical, and inventory support to Hydra Flow West and all of their customers, with Hydra Flow West representing Walker Filtration in the following states: California, Washington, Oregon, Nevada, Utah, Arizona, Idaho, Montana, and Wyoming.

With a presence in North, Central and South America, Walker Filtration, Inc. has grown 31% in the past year with plans to continue a solid growth plan for years to come. The relationship with Hydra Flow West will facilitate Walker Filtration's progression on the West Coast, while meeting customer needs with high quality products, competitive pricing, and short lead times.

Walker Filtration, Inc. Regional Manager, Lee Gehrlein states "This is an exciting opportunity for both Walker Filtration and Hydra Flow West. With a West Coast stocking location and sales presence we can focus on effectively assisting in the development of the west coast with Walker Filtration products."

Walker Filtration, Inc. is ISO9001:2008 accredited, along with its parent company, Walker Filtration, Ltd. based in the United Kingdom. Walker Filtration manufactures a wide range of industrial air and gas filtration and dehumidification technologies for compressed air filters, vacuum pump filtration, and medical sterile filters with a global presence and several facilities around the world
